extreme quick fix treatment

Natural Protection For Natural Beauty!

Hair also oxidises... like any defenceless surface exposed to open air. Hair deteriorates because of the corrosive chemical effects of free radicals, oxygen molecules altered by solar radiation and environmental pollution which attack the cuticle and weaken the hair structure. The hair loses its natural softness shine, colour and beauty.

This great product moisturises, nourishes, softens & detangles in one quick application, smoothing the cuticle and capillary fibers it leaves the hair with a great shine without any added weight.

Phase One - (White) Nourishing oils, Wheat Amino Acids will add gloss, strength and condition.

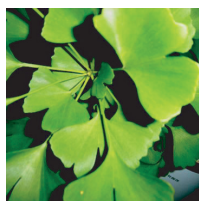

Phase Two - (Blue) Grape Seed, Green Tea & Ginkgo Biloba extracts provide additional conditioning and anti-oxidant properties. UVA/B filters protect from sunlight together creating this great treatment. pH balanced 2.5.

Two Phases - Shake bottle thoroughly, spray onto towel dried hair and just leave in! Instant action for a great result on all hair types. Quick Fix provides the salon with an economic fast 'In Salon' treatment service and the consumer with a simple take home solution to dry, damaged or chemically treated hair.

WHITE GRAPE

Undoubtedly the strongest and most innovative anti-oxidant. It contains polyphenols, mineral salts, sugars and vitamins.

GINKGO BILOBA

Thousand-year-old tree, sacred in China and Japan with long lasting properties. It contains sugars, vitamin C and flavonoids.

GREEN TEA

Known as the 'Elixir of Life' in the Far East. It contains vitamins C and B, manganese and potassium, with highly beneficial effects.

RRP £7.95 each
